Audio Flashcard Creation App for Anki - golang	*Current*
Automated Shipping Server for Canned Goods - Python	*2024*
Predictive Flash Card Application - Python	*2022*
Chip-8 Emulator - C++, Architecture, SDL	*2022*
Tetris Clone - SDL, C++	*2018*

CAREER OBJECTIVE

I am aiming to combine my lifelong interest of computation and a professional environment. I have always been captivated by problems that arise during my time developing software, and I have developed relevant skills as a result. A position at your company where I contribute to an existing code base, and/or where I build things from the ground up peaks my interest.

EXPERIENCE

Instructor at GenTechSupport *January 2024 - Present*
Teaching kids STEM.

Internship at Canned Goods *January 2024*
Automated online shipping with restful API calls from Python.
Deployed the project on a Linux server.

CERTIFICATIONS - AWARDS

Comp TIA Project + — Project Management	*2023*
ITIL 4 — Service Management	*2023*
Eagle Scout Award, BSA	*2017*
Hack Phoenix 2013, 2nd place	*2013*
